Createspace, United States, 2010. Paperback. Book Condition: New. 196 x 132 mm. Language: English . Brand New Book ***** Print on Demand *****.When his 11-year-old Lhasa Apso, Fergie, was diagnosed with lymphoma, a deadly cancer, Dr. Steven Eisen decided not to rely on standard veterinary care but to apply his own specialist expertise to the case and to treat his dog holistically. He knew from his prior research that a skillfully tailored diet, plus natural supplements, would often achieve cures without the downsides of conventional medicine. His instincts were validated: Fergie was restored to health, confounding her vet s prognosis that she would live no more than six weeks by surviving for almost two and a half years and reaching normal life expectancy for her breed. **Dog Cancer: The Holistic Answer** describes in detail the broad protocol Dr. Eisen used to rescue Fergie from her death sentence and explains how to customize it for your own dog. While acknowledging that each owner must make a personal decision on the relative merits of conventional and holistic approaches, he presents a powerful case for questioning the use of toxic, invasive, and high-priced methods that too often end in grief. Unlike most books on dog cancer treatments, which are overstuffed and overwhelming to the average dog owner, this guide is tightly focused on the need to act wisely right away. In just 80 pages, Dr. Eisen clearly explains the five steps of the healing protocol, beginning with the elimination of toxins from the body, from the immediate environment, and from every item the dog consumes; continuing with the easy preparation of an anti-cancer diet; then moving on to immune enhancement, enzyme therapy, and the use of vitamins, herbs, and other supplements. The totality of information compiled by Dr. Eisen cannot currently be found...
